### About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

### About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

#### IEC publications search -

[webstore.iec.ch/advsearchform](http://webstore.iec.ch/advsearchform)

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee, ...). It also gives information on projects, replaced and withdrawn publications.

#### IEC Just Published - [webstore.iec.ch/justpublished](http://webstore.iec.ch/justpublished)

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

#### IEC Customer Service Centre - [webstore.iec.ch/csc](http://webstore.iec.ch/csc)

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: [sales@iec.ch](mailto:sales@iec.ch).

#### IEC Products & Services Portal - [products.iec.ch](http://products.iec.ch)

Discover our powerful search engine and read freely all the publications previews, graphical symbols and the glossary. With a subscription you will always have access to up to date content tailored to your needs.

#### Electropedia - [www.electropedia.org](http://www.electropedia.org)

The world's leading online dictionary on electrotechnology, containing more than 22 500 terminological entries in English and French, with equivalent terms in 25 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

## CONTENTS

FOREWORD.....	5
INTRODUCTION .....	7
1 Scope.....	11
2 Normative references.....	12
3 Terms, definitions and abbreviated terms.....	12
3.1 Terms and definitions.....	12
3.2 Abbreviated terms.....	12
4 ISO 55001:2024, Clause 4: Context of the organization .....	14
4.1 Understanding the organization and its context.....	14
4.1.1 Explanation .....	14
4.1.2 Typical examples and case studies on external and internal issues .....	14
4.1.3 Further reading on the organization and its context .....	15
4.2 Understanding the needs and expectations of stakeholders .....	15
4.2.1 Explanation .....	15
4.2.2 Typical stakeholders and their expectations for T&D companies .....	16
4.2.3 Further reading on the stakeholders and their expectations .....	17
4.3 Determining the scope of the asset management system .....	18
4.3.1 Explanation .....	18
4.3.2 Typical examples and case studies on the scope of AMS .....	18
4.3.3 Further reading on the scope of AMS .....	18
4.4 Asset management system .....	18
4.4.1 Explanation .....	18
4.4.2 Typical examples and case studies on the AMS .....	18
4.4.3 Further reading on AMS.....	18
4.5 Asset management decision-making.....	18
4.5.1 Explanation .....	18
4.5.2 Typical examples and case studies on decision-making .....	19
5 ISO 55001:2024, Clause 5: Leadership .....	19
5.1 Leadership and commitment .....	19
5.1.1 Explanation .....	19
5.1.2 Typical examples and case studies on leadership.....	19
5.1.3 Further reading on leadership .....	19
5.2 Asset management policy .....	19
5.2.1 Explanation .....	19
5.2.2 Typical examples and case studies on policy .....	19
5.2.3 Further reading on policy .....	20
5.3 Roles, responsibilities and authorities .....	20
5.3.1 Explanation .....	20
5.3.2 Typical examples and case studies on organizational roles and responsibilities.....	20
6 ISO 55001:2024, Clause 6: Planning .....	20
6.1 Actions to address risks and opportunities.....	20
6.1.1 Explanation .....	20
6.1.2 Examples and case studies on actions to address risks and opportunities .....	20
6.1.3 Further readings on actions to address risks and opportunities .....	20
6.2 Asset management objectives and planning to achieve them.....	20

6.2.1	Explanation .....	20
6.2.2	Typical examples and case studies on objectives and the SAMP .....	21
6.2.3	Further reading on objectives and the SAMP .....	22
6.3	Planning of changes .....	22
7	ISO 55001:2024, Clause 7: Support.....	23
7.1	Resources .....	23
7.1.1	Explanation .....	23
7.1.2	Typical examples and case studies on resources .....	23
7.1.3	Further reading on resources .....	24
7.2	Competence.....	24
7.2.1	Explanation .....	24
7.2.2	Typical examples and case studies on competences .....	24
7.2.3	Further reading on competence .....	24
7.3	Awareness .....	24
7.3.1	Explanation .....	24
7.3.2	Typical examples and case studies on awareness .....	25
7.4	Communication .....	25
7.4.1	Explanation .....	25
7.4.2	Typical examples and case studies on communication .....	25
7.5	Documented information.....	25
7.6	Data and information.....	25
7.6.1	Explanation .....	25
7.6.2	Information and monitoring .....	25
7.6.3	Network and asset related information .....	25
7.6.4	Further readings on information.....	25
7.7	Knowledge .....	25
8	ISO 55001:2024, Clause 8: Operation.....	26
8.1	Operation planning and control including life cycle management.....	26
8.1.1	Explanation .....	26
8.1.2	Typical examples and case studies on operation .....	26
8.1.3	Further readings on operation .....	26
8.2	Control of change .....	26
8.2.1	Explanation .....	26
8.2.2	Typical examples and case studies on management of change.....	26
8.3	Externally provided processes, products, technologies and services .....	26
8.3.1	Explanation .....	26
8.3.2	Typical examples and case studies on outsourcing.....	26
9	ISO 55001:2024, Clause 9: Performance evaluation.....	27
9.1	Monitoring, measurement, analysis and evaluation.....	27
9.1.1	Explanation .....	27
9.1.2	Typical examples and case studies on monitoring .....	27
9.1.3	Further reading on monitoring .....	28
9.2	Internal audit.....	28
9.2.1	Explanation .....	28
9.2.2	Typical examples and case studies on internal audit.....	28
9.3	Management review.....	29
9.3.1	Explanation .....	29
9.3.2	Typical examples and case studies on management review.....	29

10	ISO 55001:2024, Clause 10: Improvement .....	29
10.1	Continual improvement.....	29
10.1.1	Explanation .....	29
10.1.2	Typical examples and case studies on continual improvement .....	29
10.2	Nonconformity and corrective action .....	29
10.2.1	Explanation .....	29
10.2.2	Typical examples and case studies on nonconformity and corrective action .....	29
10.3	Predictive action.....	29
10.3.1	Explanation .....	29
10.3.2	Typical examples and case studies on preventive action .....	29
Annex A	(informative) Further readings.....	30
A.1	ISO 55001:2024, Clause 4: Context of the organization .....	30
A.1.1	Subclause 4.1 of ISO 55001:2024 Understanding the organization and its context .....	30
A.1.2	Subclause 4.2 of ISO 55001:2024 Understanding the needs and expectations of stakeholders .....	30
A.1.3	Subclause 4.3 of ISO 55001:2024 Determining the scope of the asset management system .....	31
A.1.4	Subclause 4.4 of ISO 55001:2024 Asset management system .....	31
A.2	ISO 55001:2024, Clause 5: Leadership .....	32
A.2.1	Subclause 5.1 of ISO 55001:2024 Leadership and commitment .....	32
A.2.2	Subclause 5.2 of ISO 55001:2024 Asset management policy .....	32
A.3	ISO 55001:2024, Clause 6: Planning .....	32
A.4	ISO 55001:2024, Clause 7: Support .....	33
A.4.1	Subclause 7.1 of ISO 55001:2024: Resources .....	33
A.4.2	Subclause 7.2 of ISO 55001:2024: Competence.....	34
A.4.3	Subclause 7.6 of ISO 55001:2024: Data and information.....	34
A.5	ISO 55001:2024, Clause 8: Operation .....	35
A.6	ISO 55001:2024, Clause 9: Performance evaluation .....	35

## INTERNATIONAL ELECTROTECHNICAL COMMISSION

**MANAGEMENT OF NETWORK ASSETS IN POWER SYSTEMS –  
MANAGEMENT ASPECTS**

## FOREWORD

- 1) The International Electrotechnical Commission (IEC) is a worldwide organization for standardization comprising all national electrotechnical committees (IEC National Committees). The object of IEC is to promote international co-operation on all questions concerning standardization in the electrical and electronic fields. To this end and in addition to other activities, IEC publishes International Standards, Technical Specifications, Technical Reports, Publicly Available Specifications (PAS) and Guides (hereafter referred to as “IEC Publication(s)”). Their preparation is entrusted to technical committees; any IEC National Committee interested in the subject dealt with may participate in this preparatory work. International, governmental and non-governmental organizations liaising with the IEC also participate in this preparation. IEC collaborates closely with the International Organization for Standardization (ISO) in accordance with conditions determined by agreement between the two organizations.
- 2) The formal decisions or agreements of IEC on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees.
- 3) IEC Publications have the form of recommendations for international use and are accepted by IEC National Committees in that sense. While all reasonable efforts are made to ensure that the technical content of IEC Publications is accurate, IEC cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees undertake to apply IEC Publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any IEC Publication and the corresponding national or regional publication shall be clearly indicated in the latter.
- 5) IEC itself does not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. IEC is not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or its directors, employees, servants or agents including individual experts and members of its technical committees and IEC National Committees for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication, use of, or reliance upon, this IEC Publication or any other IEC Publications.
- 8) Attention is drawn to the Normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) IEC draws attention to the possibility that the implementation of this document may involve the use of (a) patent(s). IEC takes no position concerning the evidence, validity or applicability of any claimed patent rights in respect thereof. As of the date of publication of this document, IEC had not received notice of (a) patent(s), which may be required to implement this document. However, implementers are cautioned that this may not represent the latest information, which may be obtained from the patent database available at <https://patents.iec.ch>. IEC shall not be held responsible for identifying any or all such patent rights.

IEC TS 63224 has been prepared by IEC technical committee 123: Management of network assets in power systems. It is a Technical Specification.

This Technical Specification is to be used in conjunction with ISO 55001:2024.

The text of this Technical Specification is based on the following documents:

Draft	Report on voting
123/112/DTS	123/116/RVDTS

Full information on the voting for its approval can be found in the report on voting indicated in the above table.

The language used for the development of this Technical Specification is English.
