About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

IEC publications search -

webstore.iec.ch/advsearchform

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee, ...). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

IEC Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: sales@iec.ch.

IEC Products & Services Portal - products.iec.ch

Discover our powerful search engine and read freely all the publications previews, graphical symbols and the glossary. With a subscription you will always have access to up to date content tailored to your needs.

Electropedia - www.electropedia.org

The world's leading online dictionary on electrotechnology, containing more than 22 500 terminological entries in English and French, with equivalent terms in 25 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

CONTENTS

FOREWORD.....	6
1 Scope.....	8
2 Normative references	8
3 Terms and definitions	9
3.1 General.....	9
3.2 Personnel, organization and communication	10
3.3 Working zone	12
3.4 Working	12
3.5 Protective devices	14
3.6 Voltages	15
3.7 Distances.....	15
3.8 Miscellaneous	17
3.9 Symbols.....	17
4 Basic principles	18
4.1 Safe operation (3.1.2)	18
4.2 Personnel	19
4.3 Organization	19
4.3.1 General	19
4.3.2 The installation manager (3.2.1).....	20
4.3.3 The operation controller (3.2.2)	20
4.3.4 The work controller (3.2.3)	20
4.3.5 The worker (3.2.4).....	20
4.3.6 Skilled person in electricity.....	21
4.3.7 Instructed person in electricity.....	21
4.3.8 ordinary person (3.2.7) in electricity.....	21
4.3.9 Complexity of work activity (3.4.1).....	21
4.3.10 Objections for safety	21
4.4 Communication (transmission of information).....	22
4.5 Work location	22
4.6 Tools, equipment and devices	22
4.7 Drawings and records	23
4.8 Signs	23
4.9 Emergency arrangements.....	23
4.10 Types of supervision (3.4.11)	24
4.11 Determination of distances	24
4.11.1 General	24
4.11.2 Limit distances.....	24
4.11.3 Determination of working distances	28
4.12 Assessment of competence (3.8.2) and authorization (3.4.9) of persons	28
4.13 Planning the work	29
4.14 electrical safety rules (3.2.9)	30
5 Operational procedures	31
5.1 General.....	31
5.2 Operating activities	31
5.3 Measurement	32
5.4 Testing	32
5.5 Inspection	32

6	Working procedures.....	33
6.1	General.....	33
6.1.1	General requirements.....	33
6.1.2	Specific requirements in case of induction	35
6.1.3	Specific requirements according to weather conditions	35
6.2	Dead working (3.4.8).....	35
6.2.1	General	35
6.2.2	Disconnect completely	36
6.2.3	Secure against re-connection	36
6.2.4	Verify absence of operating voltage (3.6.4).....	36
6.2.5	Earthing and short-circuiting.....	37
6.2.6	Protection against adjacent live parts	39
6.2.7	permission to start work (3.4.10)	39
6.2.8	Re-energizing after work	39
6.3	Live working (3.4.4).....	39
6.3.1	General	39
6.3.2	Training and qualification	40
6.3.3	Maintenance of personnel ability	40
6.3.4	Working methods	40
6.3.5	Working instructions.....	41
6.3.6	Tools, equipment and devices	41
6.3.7	Environmental conditions	41
6.3.8	Organization of work	42
6.3.9	Specific requirements for extra-low voltage installations.....	43
6.3.10	Specific requirements for low voltage installations	43
6.3.11	Specific requirements for high voltage installations.....	43
6.3.12	Specific works on live parts	43
6.4	Working within the vicinity zone (3.4.5).....	43
6.4.1	General	43
6.4.2	Protection by screen (3.5.1), barrier (3.5.2), enclosure (3.5.4) or protective cover (3.5.3)	44
6.4.3	Protection by safe distance and supervision (3.4.11).....	45
6.5	Working outside the vicinity zone (3.3.3).....	45
6.5.1	General	45
6.5.2	Specific requirements for non-electrical work (3.4.3), e.g. construction work, and electrical work (3.4.2).....	45
7	Maintenance procedures.....	46
7.1	General.....	46
7.2	Personnel	47
7.3	Repair work	47
7.4	Replacement work.....	48
7.4.1	Replacement of fuses.....	48
7.4.2	Replacement of lamps and accessories	48
7.5	Temporary interruption of maintenance work.....	48
7.6	End of maintenance work	48
Annex A	(informative) Guidance for distances in air for working procedures	49
A.1	Limit distances	49
A.2	Working distances.....	49
A.2.1	General	49

A.2.2	Determination of the distance value related to the voltage level.....	49
A.2.3	Considerations of tools, devices or equipment	49
A.2.4	Ergonomic considerations	50
A.2.5	Working distance for live working	50
A.2.6	Working distance for working within the vicinity zone	51
A.2.7	Working distance for working outside the vicinity zone	52
Annex B (informative)	Additional information for safe working	54
B.1	Example for responsibility levels.....	54
B.1.1	General scheme.....	54
B.1.2	Domestic	54
B.1.3	Small company or craftsman	55
B.1.4	Large or Industrial company	55
B.2	Example of application of live working	55
B.3	Atmospheric conditions that are part of environmental conditions to be assessed	55
B.3.1	Precipitation.....	55
B.3.2	Thick fog.....	55
B.3.3	Thunderstorms.....	55
B.3.4	Violent wind	56
B.3.5	Salt storms	56
B.3.6	Extra low temperature	56
B.4	Fire protection and fire fighting	56
B.5	Work location presenting explosion risks	56
B.6	Emergency arrangements.....	57
Annex C (informative)	Hazards of electricity	58
C.1	Introduction.....	58
C.2	Electric shock hazard	59
C.3	Arc hazard	60
C.3.1	General	60
C.3.2	Hazards	61
C.3.3	Arc flash risk assessment.....	61
C.4	Electromagnetic fields	62
Annex D (informative)	Risk assessment.....	63
D.1	General.....	63
D.2	Principles of prevention	64
D.3	Hierarchy of controls	64
D.4	Categories of risk assessment.....	65
D.4.1	General	65
D.5	Design risk assessment.....	65
D.5.1	General	65
D.5.2	Electrical installation risk assessment.....	65
D.5.3	Work plan risk assessment.....	66
D.5.4	Work location risk assessment	66
D.5.5	Work start risk assessment	66
D.5.6	Specific risk assessment	67
D.6	Risk assessment formats.....	67
D.6.1	General	67
D.6.2	As low as reasonably practicable (ALARP)	67
D.6.3	Consequence/likelihood matrix (risk matrix or heat map).....	71

Annex E (informative) Safe system of work and safety documents	72
E.1 Safe system of work	72
E.2 Safety documents for dead working (3.4.8) (6.2)	72
E.2.1 General	72
E.2.2 Switching plan	73
E.2.3 Request for dead working	73
E.2.4 Authorization for dead working	73
E.2.5 Definition of the work location	74
E.2.6 Authorization for electrical test, measurement and verification	74
E.2.7 Permission to start work	75
E.2.8 Cancellation of permission to start work	75
E.2.9 Notification of readiness to re-energize	75
E.3 Safety documents for live working (3.4.4) (6.3)	76
E.3.1 General	76
E.3.2 Request for live working	76
E.3.3 Authorization for live working	77
E.3.4 Definition of work location	77
E.3.5 Authorization for equipment used if required	77
E.3.6 Permission to start work	78
E.4 Safety documents for working within the vicinity zone (3.3.3) (sub-clause 6.4)	78
E.4.1 General	78
E.4.2 Switching plan (3.8.3) (if necessary)	79
E.4.3 Request for working within the vicinity zone (3.3.3)	80
E.4.4 Authorization for working within the vicinity zone (3.3.3)	80
E.4.5 Definition of work location (3.3.1)	80
E.4.6 Authorization for electrical test, measurement and verification (if necessary)	81
E.4.7 Permission to start work	81
E.4.8 Notification of readiness to re-energize (if necessary)	82
E.5 Safety documents for working outside the vicinity zone (6.5)	82
Annex F (informative) Terms and definitions in alphabetic order	83
F.1 General	83
F.2 English	83
F.3 French	84
F.4 German	86
Bibliography	88
Figure 1 – Distances in air and zones	25
Figure 2 – Example of eliminating limit zones by the use of an insulating protective device	26
Figure 3 – Example of eliminating limit zones by the use of a barrier (3.5.2) (insulating or non-insulating)	27
Figure 4 – Flowchart "planning working procedure"	34
Figure A.1 – Example for determination of the minimum working distance for working within the vicinity zone (3.4.5)	52
Figure A.2 – Example for determination of the minimum working distance for working outside the vicinity zone (3.3.3)	53
Figure B.1 – Responsibility levels	54

Figure C.1 – Time and current zones for effects of alternating and direct current through human body	60
Figure D.1 – Hierarchy of risk controls: the most efficient way is to remove the hazard, and the least effective is using PPE	64
Figure D.2 – A graphical tool for visualising the risk (3.1.3).....	68
Figure D.3 – Example of consequence/likelihood matrix (IEC 31010 [15]).....	71
Table 1 – Estimated values for distances D_L and D_V	28
Table C.1 – Summarized impacts of AC and DC current through human body (see Figure C.1	60
Table D.1 – Risk classification for personal injuries	68
Table D.2 – A matrix for assessing design risk with ALARP	70
Table F.1 – Terms in English	83
Table F.2 – Terms in French	84
Table F.3 – Terms in German.....	86
