About the IEC

The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications

The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

IEC publications search - webstore.iec.ch/advsearchform

The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,...). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished

Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

IEC Customer Service Centre - webstore.iec.ch/csc

If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: sales@iec.ch.

Electropedia - www.electropedia.org

The world's leading online dictionary on electrotechnology, containing more than 22 000 terminological entries in English and French, with equivalent terms in 16 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

IEC Glossary - std.iec.ch/glossary

67 000 electrotechnical terminology entries in English and French extracted from the Terms and definitions clause of IEC publications issued between 2002 and 2015. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

|--|----|
| FOREWORD..... | 4 |
| INTRODUCTION..... | 5 |
| 1 Scope..... | 7 |
| 2 Normative references | 7 |
| 3 Terms, definitions and abbreviated terms | 8 |
| 3.1 Terms and definitions..... | 8 |
| 3.2 Abbreviated terms..... | 10 |
| 4 Conformance..... | 11 |
| 5 IGRS RA overview..... | 11 |
| 6 IGRS RA service functional flow | 11 |
| 7 Registration management..... | 13 |
| 7.1 User or device registration flow..... | 13 |
| 7.2 User registration management | 14 |
| 7.3 Device registration management..... | 14 |
| 7.4 Registration response status code | 15 |
| 8 Login..... | 15 |
| 8.1 User or device login flow..... | 15 |
| 8.2 User connection..... | 16 |
| 8.3 Messages for user connection ID binding..... | 16 |
| 8.4 Device connection..... | 17 |
| 8.5 Messages for device connection ID binding..... | 17 |
| 9 Device access rights configuration..... | 18 |
| 9.1 Overview..... | 18 |
| 9.2 Messages for device access rights configuration request..... | 18 |
| 9.3 Messages for device access rights configuration response..... | 19 |
| 10 User and device relationship management..... | 20 |
| 10.1 Overview..... | 20 |
| 10.2 Relationship management mechanism | 23 |
| 10.3 Relationship establishment | 24 |
| 10.3.1 Messages for relationship establishment request..... | 24 |
| 10.3.2 Relationship establishment request procedure for IRSP..... | 24 |
| 10.3.3 Target accepts or rejects relationship establishment request | 25 |
| 10.3.4 IRSP processes relationship establishment acceptance message from target..... | 26 |
| 10.4 Releasing relationship..... | 27 |
| 10.5 Device verification code management | 28 |
| 10.5.1 Device verification code management initiated by IGRS RA user | 28 |
| 10.5.2 Device verification code management initiated by IGRS RA device..... | 29 |
| 11 Message exchange..... | 30 |
| 11.1 Overview..... | 30 |
| 11.2 User or device ↔ User or device message exchange that needs response | 30 |
| 11.3 User or device ↔ User or device message exchange that does not need response..... | 31 |
| 11.4 User or device ↔ IRSP message exchange | 32 |
| 11.5 IGRS RA server pushes message to user or device | 32 |
| 11.6 IGRS RA NAT traversal..... | 33 |

| | | |
|--------|---|----|
| 11.7 | Message exchange mode | 34 |
| 11.7.1 | Overview | 34 |
| 11.7.2 | Message exchange of “point-to-point” and “point-to- multiple-point” | 35 |
| 11.7.3 | Message exchange of “instant transmission” and “offline storage” | 35 |
| 12 | Logout | 35 |
| 13 | User and device discovery and online status management | 36 |
| 14 | Security | 38 |
| | Bibliography | 39 |

INFORMATION TECHNOLOGY – HOME ELECTRONIC SYSTEM (HES) ARCHITECTURE –

Part 5-8: Intelligent grouping and resource sharing for HES Class 2 and Class 3 – Remote access core protocol

FOREWORD

- 1) ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work. In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC 1.
- 2) The formal decisions or agreements of IEC and ISO on technical matters express, as nearly as possible, an international consensus of opinion on the relevant subjects since each technical committee has representation from all interested IEC National Committees and ISO member bodies.
- 3) IEC, ISO and ISO/IEC publications have the form of recommendations for international use and are accepted by IEC National Committees and ISO member bodies in that sense. While all reasonable efforts are made to ensure that the technical content of IEC, ISO and ISO/IEC publications is accurate, IEC or ISO cannot be held responsible for the way in which they are used or for any misinterpretation by any end user.
- 4) In order to promote international uniformity, IEC National Committees and ISO member bodies undertake to apply IEC, ISO and ISO/IEC publications transparently to the maximum extent possible in their national and regional publications. Any divergence between any ISO, IEC or ISO/IEC publication and the corresponding national or regional publication should be clearly indicated in the latter.
- 5) ISO and IEC do not provide any attestation of conformity. Independent certification bodies provide conformity assessment services and, in some areas, access to IEC marks of conformity. ISO or IEC are not responsible for any services carried out by independent certification bodies.
- 6) All users should ensure that they have the latest edition of this publication.
- 7) No liability shall attach to IEC or ISO or its directors, employees, servants or agents including individual experts and members of their technical committees and IEC National Committees or ISO member bodies for any personal injury, property damage or other damage of any nature whatsoever, whether direct or indirect, or for costs (including legal fees) and expenses arising out of the publication of, use of, or reliance upon, this ISO/IEC publication or any other IEC, ISO or ISO/IEC publications.
- 8) Attention is drawn to the normative references cited in this publication. Use of the referenced publications is indispensable for the correct application of this publication.
- 9) Attention is drawn to the possibility that some of the elements of this ISO/IEC publication may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights.

International Standard ISO/IEC 14543-5-8 was prepared by subcommittee 25: Interconnection of information technology equipment, of ISO/IEC joint technical committee 1: Information technology.

The list of all currently available parts of the ISO/IEC 14543 series, under the general title *Information technology – Home electronic system (HES) architecture*, can be found on the IEC and ISO websites.

This International Standard has been approved by vote of the member bodies, and the voting results may be obtained from the address given on the second title page.

This publication has been drafted in accordance with the ISO/IEC Directives, Part 2.

A bilingual version of this publication may be issued at a later date.

IMPORTANT – The 'colour inside' logo on the cover page of this publication indicates that it contains colours which are considered to be useful for the correct understanding of its contents. Users should therefore print this document using a colour printer.
