About the IEC
The International Electrotechnical Commission (IEC) is the leading global organization that prepares and publishes International Standards for all electrical, electronic and related technologies.

About IEC publications
The technical content of IEC publications is kept under constant review by the IEC. Please make sure that you have the latest edition, a corrigendum or an amendment might have been published.

IEC publications search - webstore.iec.ch/advsearchform
The advanced search enables to find IEC publications by a variety of criteria (reference number, text, technical committee,…). It also gives information on projects, replaced and withdrawn publications.

IEC Just Published - webstore.iec.ch/justpublished
Stay up to date on all new IEC publications. Just Published details all new publications released. Available online and once a month by email.

IEC Customer Service Centre - webstore.iec.ch/csc
If you wish to give us your feedback on this publication or need further assistance, please contact the Customer Service Centre: sales@iec.ch.

Electropedia - www.electropedia.org
The world's leading online dictionary on electrotechnology, containing more than 22 000 terminological entries in English and French, with equivalent terms in 16 additional languages. Also known as the International Electrotechnical Vocabulary (IEV) online.

IEC Glossary - std.iec.ch/glossary
67 000 electrotechnical terminology entries in English and French extracted from the Terms and definitions clause of IEC publications issued between 2002 and 2015. Some entries have been collected from earlier publications of IEC TC 37, 77, 86 and CISPR.

CONTENTS

FOREWORD 4
INTRODUCTION 6
1 Scope 8
2 Normative references 8
3 Terms, definitions and abbreviated terms 8
3.1 Terms and definitions 8
3.2 Abbreviated terms 10
4 Conformance 10
5 IRSP overview 10
6 IRSP architecture 11
7 Server types 12
7.1 Account server 12
7.2 Message server 13
7.3 Application server 13
7.4 IRSP external application server 14
8 Messages exchanged between servers 14
8.1 Overview 14
8.2 Messages exchanged between account server and message server 15
8.2.1 Register on account server 15
8.2.2 Modify the user or device information 16
8.2.3 Delete account on the IRSP 17
8.2.4 Reset device verification code on IRSP 18
8.3 Messages exchanged between message server and application server in same AS 19
8.3.1 User or device uploads message to application server through message server 19
8.3.2 Device uploads online/offline notification to application server through message server 19
8.3.3 Application server pushes message to user or device through message server 19
8.3.4 Response status code for message exchange between message server and application server in same AS 20
8.4 Messages exchanged between application servers in same AS 21
8.4.1 Overview 21
8.4.2 Response status code for message exchange between application servers in same AS 21
8.5 Messages exchanged between message servers in different ASs 22
8.6 Messages exchanged between application servers in different ASs 22
8.7 Messages exchanged between message server and application server in different ASs 22
8.8 Messages exchanged between IRSP internal application server and IRSP external application server 22
8.8.1 Overview 22
8.8.2 IRSP internal application server sends message to third party IRSP external application server 22
8.8.3 Third party IRSP external application server sends message to IRSP internal application server 23
9 Security of IRSP 24

Bibliography 25

Figure 1 – Interfaces and working scope of IGRS RA core protocol and IRSP protocol 11
Figure 2 – IRSP architecture 12
Figure 3 – Message exchange models in IGRS RA system 14

Table 1 – Registration response status code and contents in registration response message 16
Table 2 – Information modification response status code and contents in information modification response message 17
Table 3 – Deletion response status code and contents in deletion response message 18
Table 4 – Device verification code reset response status code and contents in the device verification code reset response message 18
Table 5 – Response status code for message request from message server to application server 20
Table 6 – Response status code for message request from application server to message server 21
Table 7 – Response status code for message request from one application server to another application server in same AS 22
Table 8 – Requested parameters in message sent from the third party IRSP external application server to the IRSP internal application server 23
