
Interior air of road vehicles —

Part 10:

**Whole vehicle test chamber —
Specification and methods for the
determination of volatile organic
compounds in cabin interiors —
Trucks and buses**

Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	2
3 Terms and definitions	2
4 Apparatus and materials	3
4.1 General.....	3
4.2 Heating radiator.....	3
4.3 Sampling trains.....	3
4.3.1 Sampling in the test vehicle.....	3
4.3.2 Sampling in the whole vehicle test chamber.....	4
4.3.3 Sampling line.....	4
4.4 Analytical equipment and materials.....	4
4.5 Test vehicle.....	4
5 Principle	5
6 Requirements of the whole vehicle test chamber, test vehicle and measurement procedures	5
6.1 Requirements for the whole vehicle test chamber.....	5
6.2 Requirements for the test vehicle.....	6
6.3 Requirements for VOC and carbonyl compound air sampling and measurement methods.....	7
6.4 Field blank measurement.....	8
7 Standard test procedure	9
7.1 General.....	9
7.2 Pre-arrangements and preconditioning of the whole vehicle test chamber and the vehicle performing field blanks.....	9
7.2.1 Pre-arrangements.....	9
7.2.2 Preconditioning of the whole vehicle test chamber.....	9
7.2.3 Preconditioning of the test vehicle.....	9
7.2.4 Field blanks.....	9
7.3 Detailed description of the test procedure.....	10
7.3.1 Ambient mode.....	10
7.3.2 Parking mode.....	11
7.3.3 Driving mode.....	11
8 Calculation, presentation of results, and precision and uncertainty	12
9 Performance characteristics	12
10 Quality assurance	12
Annex A (informative) Whole vehicle test chamber and the ambient mode chamber condition	13
Annex B (informative) VOC concentration distribution in the bus cabin	14
Annex C (informative) Temperature measuring points for parking mode	15
Annex D (informative) Test report	16
Annex E (informative) Very volatile organic compounds, volatile organic compounds and semi-volatile organic compounds	18
Bibliography	19

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 146, *Air quality*, Subcommittee SC 6, *Indoor air*.

A list of all parts in the ISO 12219 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
