Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms, definitions and symbols	1
3.1 Terms and definitions.....	1
3.2 Symbols.....	2
4 Fan system efficiency calculations	3
4.1 General.....	3
4.2 Components.....	3
4.2.1 Fan.....	3
4.2.2 Power transmission.....	3
4.2.3 Motor and controller.....	4
4.3 System integration.....	6
5 Reporting of results	6
Annex A (informative) Fan system power losses	8
Annex B (informative) EPCA nominal motor efficiency (60 Hz motors)	9
Annex C (informative) IEC 60034-30-1 nominal motor efficiency at 50 Hz	10
Annex D (informative) Nominal motor efficiency according to Reference [7] for China	14
Annex E (normative) Horsepower rated polyphase induction motor performance constants when fed from VFD	15
Annex F (normative) Kilowatt rated polyphase induction motor performance constants when fed from VFD	16
Annex G (normative) Horsepower rated VFD performance constants	17
Annex H (normative) Kilowatt rated VFD performance constants	18
Annex I (normative) Polyphase induction motor performance constants (DOL, hp rated motors)	19
Annex J (normative) Polyphase induction motor performance constants (DOL, kW rated motors)	20

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see www.iso.org/directives).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see www.iso.org/patents).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see www.iso.org/iso/foreword.html.

This document was prepared by Technical Committee ISO/TC 117, *Fans*.

This first edition of ISO 12759-2, together with ISO 12759-1 and ISO 12759-3 to ISO 12759-6, cancels and replaces ISO 12759:2010, which has been technically revised. It also incorporates the Amendment ISO 12759:2010/Amd.1:2013.

A list of all parts in the ISO 12759 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at www.iso.org/members.html.
