15.1	Plane of transmission.....	23
15.1.1	Apparatus.....	23
15.1.2	Test procedure.....	23
15.1.3	Test report.....	24
15.2	Polarizing efficiency.....	24
15.2.1	Principle.....	24
15.2.2	Test procedure for the spectrophotometric method.....	25
15.2.3	Test report.....	25
15.2.4	Test procedure for the broadband method.....	25
15.2.5	Test report.....	26
<b>16</b>	<b>Photochromic lenses</b> .....	<b>26</b>
16.1	Light source(s) to approximate the spectral distribution of solar radiation for air mass 2 for testing.....	26
16.1.1	Radiation source using one lamp.....	26
16.1.2	Radiation source using two lamps.....	27
16.2	Conditioning for luminous transmittance in the faded state.....	27
16.3	Measurement.....	28

16.3.1	Principle .....	28
16.3.2	Faded state .....	28
16.3.3	Darkened states .....	28
<b>17</b>	<b>Automatic welding filters .....</b>	<b>29</b>
17.1	General .....	29
17.2	Luminous transmittance in the light state .....	29
17.2.1	Measurement .....	29
17.2.2	Test report .....	30
17.3	Luminous transmittance in the dark state .....	30
17.3.1	Measurement .....	30
17.3.2	Test report .....	30
17.4	Shade number of welding filters with automatic shade number setting .....	30
17.4.1	Principle .....	30
17.4.2	Apparatus .....	31
17.4.3	Test procedure .....	31
17.4.4	Test report .....	31
17.5	Luminous transmittance variation over time .....	31
17.5.1	Principle .....	31
17.5.2	Apparatus .....	32
17.5.3	Test procedure .....	32
17.5.4	Test report .....	32
17.6	Blue-light transmittance for artificial sources .....	32
17.6.1	Measurement .....	32
17.6.2	Test report .....	32
17.7	Uniformity of luminous transmittance for flat filters .....	32
17.7.1	Filter covering both eyes .....	32
17.8	Angular dependence of luminous transmittance for flat filters .....	33
17.8.1	Principle .....	33
17.8.2	Apparatus .....	33
17.8.3	Test procedure .....	34
17.8.4	Test report .....	37
17.9	Angular dependence and uniformity of luminous transmittance for curved filters .....	37
17.9.1	Principle .....	37
17.9.2	Apparatus .....	37
17.9.3	Procedure .....	38
17.9.4	Test report .....	39
17.10	Transmittance matching at right and left reference points .....	39
17.10.1	Procedure .....	39
17.10.2	Test report .....	39
17.11	Switching time .....	39
17.11.1	Principle .....	39
17.11.2	Apparatus .....	39
17.11.3	Procedure .....	39
17.11.4	Uncertainty of measurement .....	40
17.11.5	Test report .....	40
17.12	Holding time .....	40
17.12.1	Principle .....	40
17.12.2	Apparatus .....	40
17.12.3	Procedure .....	40
17.12.4	Uncertainty of measurement .....	40
17.12.5	Test report .....	40
17.13	Manual control of dark state .....	40
17.13.1	Procedure .....	40
17.13.2	Test report .....	41
17.14	Optical sensitivity of welding detection .....	41
17.14.1	Principle .....	41
17.14.2	Apparatus .....	41
17.14.3	Measuring equipment .....	42

17.14.4 Trigger light source (L).....	43
17.14.5 Calibration procedure for the trigger light source (L).....	44
17.14.6 Higher intensity light source (I).....	44
17.14.7 Lower intensity light source (F).....	45
17.14.8 Test procedure.....	46
17.14.9 Test report.....	46
<b>Annex A (normative) Application of uncertainty of measurement.....</b>	<b>47</b>
<b>Annex B (informative) Sources of uncertainty in spectrophotometry and their estimation and control.....</b>	<b>50</b>
<b>Annex C (informative) Definitions in summation form.....</b>	<b>58</b>
<b>Annex D (normative) Spectral functions for the calculation of transmittance and reflectance values.....</b>	<b>63</b>
<b>Annex E (informative) Generic description of automatic welding filters and guidance on illumination during testing.....</b>	<b>73</b>
<b>Bibliography.....</b>	<b>77</b>

## Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular the different approval criteria needed for the different types of ISO documents should be noted. This document was drafted in accordance with the editorial rules of the ISO/IEC Directives, Part 2 (see [www.iso.org/directives](http://www.iso.org/directives)).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see [www.iso.org/patents](http://www.iso.org/patents)).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT) see [www.iso.org/iso/foreword.html](http://www.iso.org/iso/foreword.html).

This document was prepared by Technical Committee ISO/TC 94, *Personal safety — Protective protective equipment*, Subcommittee SC 6, *Eye and face protection*.

This first edition of ISO 18526-2, together with ISO 18526-1, cancels and replaces ISO 4854:1981.

A list of all parts in the ISO 18526 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at [www.iso.org/members.html](http://www.iso.org/members.html).
