## Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

The procedures used to develop this document and those intended for its further maintenance are described in the ISO/IEC Directives, Part 1. In particular, the different approval criteria needed for the different types of document should be noted (see [www.iso.org/directives](http://www.iso.org/directives)).

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. ISO and IEC shall not be held responsible for identifying any or all such patent rights. Details of any patent rights identified during the development of the document will be in the Introduction and/or on the ISO list of patent declarations received (see [www.iso.org/patents](http://www.iso.org/patents)) or the IEC list of patent declarations received (see <http://patents.iec.ch>).

Any trade name used in this document is information given for the convenience of users and does not constitute an endorsement.

For an explanation of the voluntary nature of standards, the meaning of ISO specific terms and expressions related to conformity assessment, as well as information about ISO's adherence to the World Trade Organization (WTO) principles in the Technical Barriers to Trade (TBT), see [www.iso.org/iso/foreword.html](http://www.iso.org/iso/foreword.html).

This document was prepared by ITU-T as ITU-T X.500 (10/2019) and drafted in accordance with its editorial rules, in collaboration with Joint Technical Committee ISO/IEC JTC 1, *Information technology*, Subcommittee SC 6, *Telecommunications and information exchange between systems*.

This ninth edition cancels and replaces the eighth edition (ISO/IEC 9594-1:2017), which has been technically revised.

A list of all parts in the ISO/IEC 9594 series can be found on the ISO website.

Any feedback or questions on this document should be directed to the user's national standards body. A complete listing of these bodies can be found at [www.iso.org/members.html](http://www.iso.org/members.html).

## CONTENTS

	<i>Page</i>
1 Scope .....	1
2 Normative references.....	1
2.1 Identical Recommendations   International Standards .....	1
3 Definitions .....	2
3.1 Communication model definitions .....	2
3.2 Directory model definitions .....	2
3.3 Distributed Operation definitions .....	3
3.4 Replication definitions .....	3
3.5 Basic directory definitions .....	3
4 Abbreviations .....	3
5 Conventions .....	4
6 Overview of the Directory .....	4
7 The Directory Information Base (DIB) .....	5
8 The Directory service .....	7
8.1 Introduction .....	7
8.2 Service qualification.....	7
8.3 Directory interrogation.....	7
8.4 Directory modification .....	8
8.5 Other outcomes .....	8
9 The distributed Directory .....	9
9.1 Functional model.....	9
9.2 Organizational model .....	9
9.3 Operation of the model.....	9
10 Access control in the Directory .....	13
11 Service administration .....	14
12 Replication in the Directory .....	15
12.1 Introduction .....	15
12.2 Forms of Directory replication .....	15
12.3 Replication and consistency of Directory information.....	16
12.4 Views of replication .....	16
12.5 Replication and Access Control .....	17
13 Directory protocols.....	17
Annex A – Applying the Directory.....	18
A.1 The Directory environment .....	18
A.2 Directory service characteristics .....	18
A.3 Patterns of use of the Directory .....	18
Annex B – Amendments and corrigenda .....	22
