services d'incendie et de secours - Partie 2 : Lances
combinées PN 16

Tragbare Geräte zum Ausbringen von Löschmitteln
und zur Unterstützung der Brandbekämpfung -
Strahlrohre für die Brandbekämpfung - Teil 2:
Hohlstrahlrohre PN 16

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 192.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (prEN 15182-2:2026) has been prepared by Technical Committee CEN/TC 192 “Fire and rescue service equipment”, the secretariat of which is held by BSI.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 15182-2:2019.

prEN 15182-2:2026 contains the following significant technical changes compared to EN 15182-2:2019:

- the first part of the title of the standard has been changed;
- scope: new wording;
- definitions 3.1.4.1 (combination branchpipe – type 4.1), 3.1.4.2 (combination branchpipe – type 4.2) and 3.1.5 (combination branchpipe – type 5) have been updated;
- definition 3.5 has been added;
- 4.1 has updated;
- in 4.3.5, verification has been updated;
- improvement of the wording/editorial changes.
