EUROPEAN STANDARD

NORME EUROPÉENNE

EUROPÄISCHE NORM

DRAFT
prEN 17096

October 2026

ICS

Will supersede EN 17096:2018

English Version

Geosynthetics - Test method for the determination of the strain hardening modulus of PE-HD geosynthetic barriers

Géosynthétiques - Méthode d'essai pour la détermination du module d'écrouissage des Géomembranes HDPE

Geokunststoffe - Prüfverfahren für die Bestimmung des Dehnverfestigungsmoduls von PE-HD-Dichtungsbahnen

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 189.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

European foreword

This document (prEN 17096:2026) has been prepared by Technical Committee CEN/TC 189 “Geosynthetics”, the secretariat of which is held by NBN.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 17096:2018.

This document includes the following significant technical changes with respect to EN 17096:2018:

— the normative references have been updated;

— Formula (3) has been modified;

— the document has been editorially revised.
