EUROPEAN STANDARD  
NORME EUROPÉENNE  
EUROPÄISCHE NORM

**DRAFT**  
**prEN 17758**

February 2026

ICS 65.080

Will supersede CEN/TS 17758:2022

English Version

## Fertilizers and liming materials - Determination of the chloride content by potentiometric titration

Engrais et amendements minéraux basiques -  
Détermination de la teneur en chlorures par titrage  
potentiométrique

Düngemittel und Kalkdünger - Bestimmung des  
Chloridgehaltes mittels potentiometrischer Titration

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 260.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

**Warning** : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

## European foreword

This document (prEN 17758:2026) has been prepared by Technical Committee CEN/TC 260 “Fertilizers and liming materials”, the secretariat of which is held by DIN.

This document is currently submitted to CEN Enquiry.

This document has been prepared under a standardization request addressed to CEN by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.

prEN 17758:2026 includes the following significant technical changes with respect to CEN/TS 17758:2022:

- The CEN Technical Specification has been adopted as a European Standard;
- Scope (Clause 1) updated regarding the applicability to fertilizing product blends;
- Water as reagent has been included (5.1);
- The option to use a centrifuge for the preparation of test portion (8.1) of organic and organic-mineral fertilizers added;
- The precision data (Clause 10) of the validation study included;
- Annex A including results of inter-laboratory study added;
- Normative references (Clause 2) and Bibliography revised.

This document has been prepared under a standardization request addressed to CEN by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.
