DRAFT
prEN 1865-4

May 2026

ICS 11.160

Will supersede EN 1865-4:2012

English Version

Patient handling equipment used in ambulances - Part 4: Foldable patient transfer chair

Équipements pour le transport de patients dans les
ambulances - Partie 4 : Chaise de transfert pliante

Krankentransportmittel in Rettungsdienstfahrzeugen -
Teil 4: Klappbare Patiententragesessel

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 239.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (prEN 1865-4:2026) has been prepared by Technical Committee CEN/TC 239 “Rescue systems”, the secretariat of which is held by DIN.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 1865-4:2012.

Compared to EN 1865-4:2012 the following main technical changes were made:

- a) Main title of EN 1865 series changed from “*Patient handling equipment used in road ambulances*” to “*Patient handling equipment used in ambulances*”;
- b) Normative references updated;
- c) Contents updated to change titles of “*Flammability – Toxicity of Burning Gasses*” to “*Flammability*”;
- d) Clause numbering updated throughout the whole document;
- e) Annex ZA revised to show relationship to Medical Device Regulations (MDR) instead of Medical Device Directive (MDD);
- f) Mass (4.3) raised from 15 kg to 17 kg;
- g) Loading capacity (4.4) raised from 150 kg to 200 kg;
- h) The use of the word label removed, intent of requirement remains unchanged (4.4);
- i) Clause on Seat and backrest (4.6) deleted;
- j) requirements aligned with other parts of this standard series;
- k) Verification methods in Clause 5 moved into Clause 4 requirements that previously referenced them. In these cases, the requirement and test methods were combined;
- l) Clause on “*Marking*” (5) deleted.

This document has been prepared under a standardization request addressed to CEN by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.

For the relationship with EU Legislation, see informative Annex ZA, which is an integral part of this document.

This document is a part of EN 1865, *Patient handling equipment used in ambulances*, which consists of the following parts:

- *Part 1: Specification for general stretcher systems and patient handling equipment;*
- *Part 2: Power assisted stretcher;*
- *Part 3: Heavy duty stretcher;*
