DRAFT
prEN 196-5

September 2026

ICS 91.100.10

Will supersede EN 196-5:2011

English Version

**Methods of testing cement - Part 5: Pozzolanicity test for
pozzolanic cement**

Méthodes d'essais des ciments - Partie 5: Essai de
pouzzolanité des ciments pouzzolaniques

Prüfverfahren für Zement - Teil 5: Prüfung der
Puzzolanität von Puzzolanzementen

This draft European Standard is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 51.

If this draft becomes a European Standard, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

This draft European Standard was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (prEN 196-5:2026) has been prepared by Technical Committee CEN/TC 51 “Cement and building limes”, the secretariat of which is held by NBN.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 196-5:2011.

prEN 196-5:2026 includes the following significant technical changes with respect to EN 196-5:2011:

- redefinition of the introduction
- introduction of indicator: Calconcarbonic acid indicator
- modification of paragraph 8.1: Standardization of the EDTA solution b) Visual determination of the end point
- modification of paragraph 9.1: Storage and filtration
- modification of paragraph 10.3: data of repeatability.
