COMMITTEE DRAFT FOR VOTE (CDV)

PROJECT NUMBER: IEC 62446-1 ED2	
DATE OF CIRCULATION: 2025-03-28	CLOSING DATE FOR VOTING: 2025-06-20
SUPERSEDES DOCUMENTS: 82/2347/RR	

IEC TC 82 : SOLAR PHOTOVOLTAIC ENERGY SYSTEMS	
SECRETARIAT: United States of America	SECRETARY: Mr George Kelly
OF INTEREST TO THE FOLLOWING COMMITTEES:	HORIZONTAL FUNCTION(S):
ASPECTS CONCERNED: Safety	
<input type="checkbox"/> SUBMITTED FOR CENELEC PARALLEL VOTING	<input checked="" type="checkbox"/> NOT SUBMITTED FOR CENELEC PARALLEL VOTING

This document is still under study and subject to change. It should not be used for reference purposes.

Recipients of this document are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Recipients of this document are invited to submit, with their comments, notification of any relevant "In Some Countries" clauses to be included should this proposal proceed. Recipients are reminded that the CDV stage is the final stage for submitting ISC clauses. (SEE [AC/22/2007](#) OR [NEW GUIDANCE DOC](#)).

TITLE:

Photovoltaic (PV) systems - Requirements for testing, documentation and maintenance - Part 1: Grid connected systems - Documentation, commissioning tests and inspection

PROPOSED STABILITY DATE: 2031

NOTE FROM TC/SC OFFICERS:

This project was discussed and supported by WG3 during their meeting in 2024-10.

The project was restarted after reaching the 5-year limit (refer to 82/2311/RQ).

Link to Committee Draft for Vote (CDV) online document:

<https://osd.iec.ch/#/editor/archive/2d770d0a-0ade-727c-e063-6d13000aad0f/en/CCDV/1>

How to access

This link will lead you to the Online Standards Development (OSD) platform for national mirror committee's comments. It replaces the project content, which is usually circulated as a PDF.

For OSD NC Managers

If not already done, your respective National Committee Administrator will create your profile via Symphony (<https://symphony.iec.ch>) as an OSD NC Manager to oversee the comment resolution process for the preparation of your national comments. Once you have been granted access via Symphony, please use your usual IEC credentials to access the link.

If you do not have access, please contact your National Committee Administrator or our OSD support team.

For OSD NC Commenters

If not already done, your OSD NC Manager will create your profile via Symphony as an OSD NC Commenter. Once you have been granted access via Symphony, please use your usual IEC credentials to access the link. You may then provide your comments directly in the OSD.

As an alternative solution, OSD NC Commenters who wish to continue using the IEC comment form can use the regular template together with a PDF of the draft document downloadable from the OSD platform. However, please note that line numbers are no longer available, and it is not possible to add tables and graphics or use track changes.

For Voters

Once all your national comments have been resolved, it is no longer necessary to upload the comment form to the IEC Voting System anymore. Instead, please use the following radio buttons in the IEC Voting System to indicate whether or not your National Committee has submitted comments in the OSD:

Before the CDV closing date, please cast your vote – In favour, Against, Abstain – to indicate your national position in the traditional way, using the IEC Voting System.

Comment: ☐ No Comment at this stage ☐ Comments in OSD

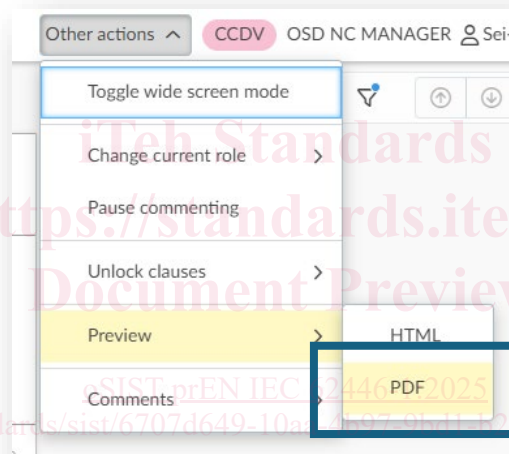

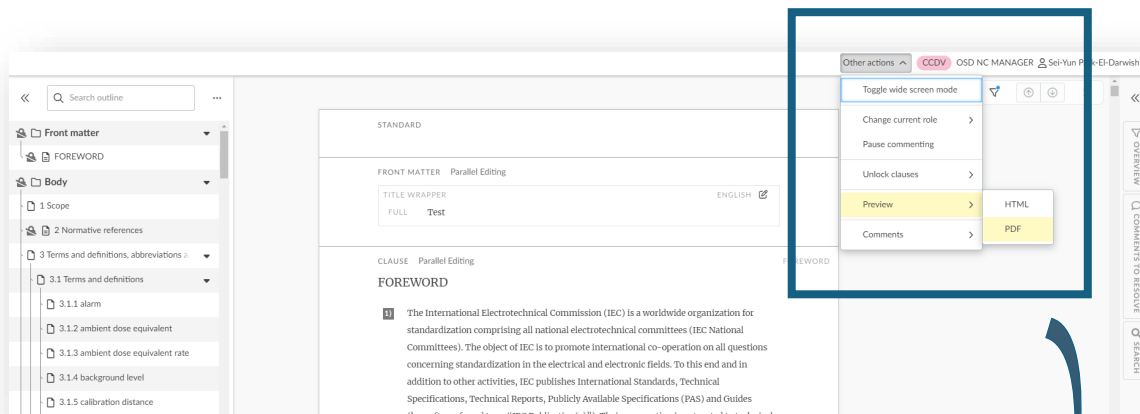

Reference materials

We recommend that OSD NC Managers and OSD NC Commenters review the available materials to better understand the member commenting on the OSD platform. This includes:

- latest videos and presentations on the [OSD webpage](#), and
- step-by-step explanations on [Helpscout](#).

How to download PDF file

This link will lead you to the Online Standards Development (OSD) platform where you may download the PDF file by following the steps shown below.

How to receive the Word file

Should your national mirror committee wish to receive the Word file for translation purposes only, please contact our OSD support at osd_support@iec.ch.

Translation integration mechanisms for OSD documents are still being studied for development. The solution above is a temporary measure.

Contact

Should you require any assistance, please contact the OSD project team at osd_support@iec.ch.
