This draft amendment is submitted to CEN members for enquiry. It has been drawn up by the Technical Committee CEN/TC 181.

This draft amendment A2, if approved, will modify the European Standard EN 17476:2021+A1:2022. If this draft becomes an amendment, CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration.

This draft amendment was established by CEN in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Recipients of this draft are invited to submit, with their comments, notification of any relevant patent rights of which they are aware and to provide supporting documentation.

Warning : This document is not a European Standard. It is distributed for review and comments. It is subject to change without notice and shall not be referred to as a European Standard.

European foreword

This document (EN 17476:2021+A1:2022/prA2:2025) has been prepared by Technical Committee CEN/TC 181 “Appliances and leisure vehicle installations using liquefied petroleum gas and appliances using natural gas for outdoor use”, the secretariat of which is held by AFNOR.

This document is currently submitted to the CEN Enquiry.

This document will supersede EN 17476:2021+A1:2022.

This document has been prepared under a standardization request addressed to CEN by the European Commission. The Standing Committee of the EFTA States subsequently approves these requests for its Member States.

For the relationship with EU Legislation, see informative Annex ZA, which is an integral part of EN 17476:2021+A1:2022.

The following main changes have been made compared to EN 17476:2021+A1:2022:

- updating of normative references;
- design requirements for assembly, cleaning and maintenance;
- addition of a new subclause 6.5.2.4 Flame stability on a inclined plane for flat portable gas heater;
- modification of the pressure value for the sensitive safety device;
- removal of the mandatory flame supervision devices for heating appliances;
- addition of a limited delay for flame extinction after closing the tap;
- wording improvement of the requirement for durability of the marking;
- description of the stainless steel plate used for the safety at high temperature test;
- improvement of the requirements for appliance marking and instructions for use, maintenance and assembly;
- rewording of Annex B;
- addition of informative Annex D explaining some technical choices retained for this standard;
- updating of Annex ZA.
