

# SLOVENSKI STANDARD SIST EN 18124:2026

01-februar-2026

---

## Materiali za označevanje vozišča - Začasne označbe vozišča

Road marking materials - Temporary road markings

Straßenmarkierungsmaterialien - Temporäre Straßenmarkierungen

Produits de marquage routier - Marquages routiers temporaires

Ta slovenski standard je istoveten z: EN 18124:2025

---

November 2025

ICS 93.080.20

English Version

**Road marking materials - Temporary road markings**

Produits de marquage routier - Marquages routiers  
temporaires

Straßenmarkierungsmaterialien - Vorübergehend  
gültige Straßenmarkierungsmaterialien

This European Standard was approved by CEN on 12 October 2025.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

| 4.1 General.....                                                                        | 8  |
| 4.2 Performance characteristics.....                                                    | 9  |
| 4.2.1 Day-time visibility (reflection in daylight or under road lighting) .....         | 9  |
| 4.2.2 Night-time visibility (retroreflection under vehicle headlamp illumination) ..... | 9  |
| 4.2.3 Day-time visibility (chromaticity coordinates) .....                              | 9  |
| 4.2.4 Night-time visibility (chromaticity coordinates) .....                            | 10 |
| 4.2.5 Skid resistance SRT value .....                                                   | 10 |
| 4.3 Durability.....                                                                     | 10 |
| 4.3.1 General.....                                                                      | 10 |
| 4.3.2 Durability on road trials.....                                                    | 11 |
| 4.3.3 Durability on wear simulator - turntable.....                                     | 11 |
| 4.4 Technical characteristics.....                                                      | 11 |
| 4.4.1 Removability.....                                                                 | 11 |
| 4.4.2 Identification .....                                                              | 12 |
| 4.4.3 Percentage of coverage.....                                                       | 12 |
| 4.4.4 Percentage of wear.....                                                           | 12 |
| 4.4.5 Cover index.....                                                                  | 12 |
| 5 Testing, assessment and sampling .....                                                | 12 |
| 5.1 Preparation of test samples .....                                                   | 12 |
| 5.2 Test methods for the performance characteristics .....                              | 12 |
| 5.2.1 General.....                                                                      | 12 |
| 5.2.2 Day-time visibility (reflection in daylight or under road lighting) .....         | 13 |
| 5.2.3 Night-time visibility (retroreflection under vehicle headlamp illumination) ..... | 13 |
| 5.2.4 Day-time visibility (chromaticity coordinates) .....                              | 13 |
| 5.2.5 Night-time visibility (chromaticity coordinates) .....                            | 13 |
| 5.2.6 Skid resistance SRT value .....                                                   | 13 |
| 5.3 Test methods for durability .....                                                   | 13 |
| 5.3.1 General.....                                                                      | 13 |
| 5.3.2 Durability on road trials.....                                                    | 14 |
| 5.3.3 Durability on wear simulator: turntable.....                                      | 14 |
| 5.4 Test methods for technical characteristics .....                                    | 14 |
| 5.4.1 Removability.....                                                                 | 14 |
| 5.4.2 Identification .....                                                              | 14 |
| 5.4.3 Percentage of coverage, percentage of wear and cover index.....                   | 14 |
| 6 Evaluation of conformity.....                                                         | 15 |
| 6.1 General.....                                                                        | 15 |
| 6.2 Product type testing.....                                                           | 15 |
| 6.3 Factory production control FPC (see EN 13212) .....                                 | 16 |
