This amendment A11 modifies the European Standard EN IEC 62841-3-3:2026; it was approved by CENELEC on 2026-05-04. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this amendment the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

## European foreword

This document (EN IEC 62841-3-3:2026/A11:2026) has been prepared by CLC/TC 116 “Safety and environmental aspects of motor-operated electric tools”.

The following dates are fixed:

- latest date by which this document has to be implemented at national level by publication of an identical national standard or by endorsement (dop) 2027-06-30
- latest date by which the national standards conflicting with this document have to be withdrawn (dow) 2030-06-30

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC shall not be held responsible for identifying any or all such patent rights.

This document modifies by common modifications EN IEC 62841-3-3:2026, which consists of the text of 116/761/FDIS (future IEC 62841-3-3, Ed. 1) prepared by IEC/TC 116 “Safety of motor-operated electric tools”.

This series is divided into four parts.

Part 1: General requirements which are common to most hand-held electric motor operated tools (for the purpose of this document referred to simply as tools) which could come within the scope of this document;

Part 2, 3 or 4: Requirements for particular types of tools which either supplement or modify the requirements given in Part 1 to account for the particular hazards and characteristics of these specific tools.

The Part 3-3 is used in conjunction with EN 62841-1:2015, EN 62841-1:2015/A11:2022 and EN 62841-1:2015/A1:2025.

The Part 3-3 supplements or modifies the corresponding clauses in EN 62841-1:2015, EN 62841-1:2015/A11:2022 and EN 62841-1:2015/A1:2025, so as to convert it into the European Standard: Particular requirements for transportable planers and thicknessers.

Where a particular subclause of Part 1 is not mentioned in the Part 3-3, that subclause applies. When this document states “addition”, “modification” or “replacement”, the relevant text in Part 1 is to be adapted accordingly.

The following print types are used:

- requirements; in roman type;
- *test specifications: in italic type;*
- notes: in smaller roman type.

The terms defined in Clause 3 are printed in **bold typeface**.

Subclauses, notes, tables and figures which are additional to those in Part 1 are numbered starting from 101.

Clauses, subclauses, notes, tables, figures and annexes which are additional to those in IEC 62841-3-3:2024 are prefixed “Z”.

This document follows the overall requirements of EN ISO 12100.
