TECHNISCHE SPEZIFIKATION

CEN/TS 15531-7

July 2025

ICS 35.240.99

English Version

**Service Interface for Real Time Information (SIRI) - Part 7:
Passenger Real-Time Information European Profile**

Serviceschnittstelle für Echtzeitinformationen (SIRI) -
Europäisches Profil für Echtzeitinformationen von
Reisenden

This Technical Specification (CEN/TS) was approved by CEN on 30 June 2025 for provisional application.

The period of validity of this CEN/TS is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the CEN/TS can be converted into a European Standard.

CEN members are required to announce the existence of this CEN/TS in the same way as for an EN and to make the CEN/TS available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the CEN/TS) until the final decision about the possible conversion of the CEN/TS into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

Annex A (informative) General Requirements	141
A.1 Exchanging data	141
A.2 Available services.....	141
A.3 Security	141
A.3.1 General.....	141
A.3.2 Network security recommendations.....	141
A.3.3 Authentication.....	142
A.3.4 Authorization and access management (application level).....	142
A.4 Technical roles	142
A.4.1 General.....	142
A.4.2 The Producer	142
A.4.3 The Data Hub.....	142
A.4.4 The Broadcaster or Consumer.....	142
A.5 Data exchange protocols.....	143
A.5.1 General.....	143
A.5.2 Asynchronous: Publish/Subscribe - Direct delivery	143
A.5.3 Synchronous: Request/response.....	150
A.5.4 Message based data exchange.....	152
A.6 Subscription Handling	152
A.6.1 Managing subscriptions across multiple services.....	152
A.6.2 Subscription initiation request	152
A.6.3 Subscription response	153
A.6.4 Subscription keep-alive	154
A.6.5 Subscription termination	154
A.7 Data exchange.....	155
A.7.1 General.....	155
A.7.2 SIRI VM (simplified example)	155
A.7.3 SIRI ET (simplified example).....	156
A.7.4 SIRI SX (simplified example)	156
A.7.5 SIRI FM (simplified example).....	156
A.8 Compression.....	157
A.9 Error Handling.....	157
Annex B (informative) Requirements on Data Exchange.....	160
B.1 General.....	160
B.2 Standard values.....	160
B.3 Data correctness	160
B.4 Data completeness.....	160
B.5 Data content	160
B.6 Data freshness	161
B.7 Disregarding the PreviewInterval.....	161
B.8 Update intervals.....	161
B.9 Completeness of incremental updates.....	162
B.10 Incremental updates and IsCompleteStopSequence	162
